Description:

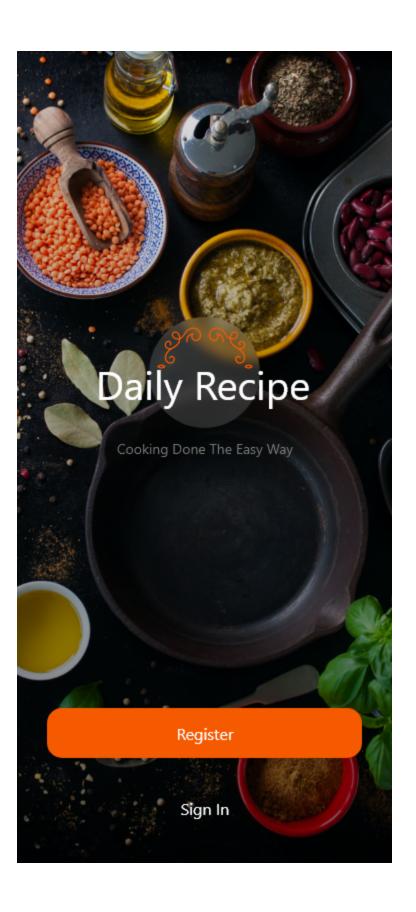

CookingApp is an Android application for searching, sharing, creating and saving recipes. This app provides flexibility to the user to search a variety of recipes from available recipes in the forum. Users can also select a recipe from the general categories. This app is time saver providing recipes in few clicks. Through title search, CookingApp makes finding recipes easy. With recipes being added daily there will always be something new for user to crave.

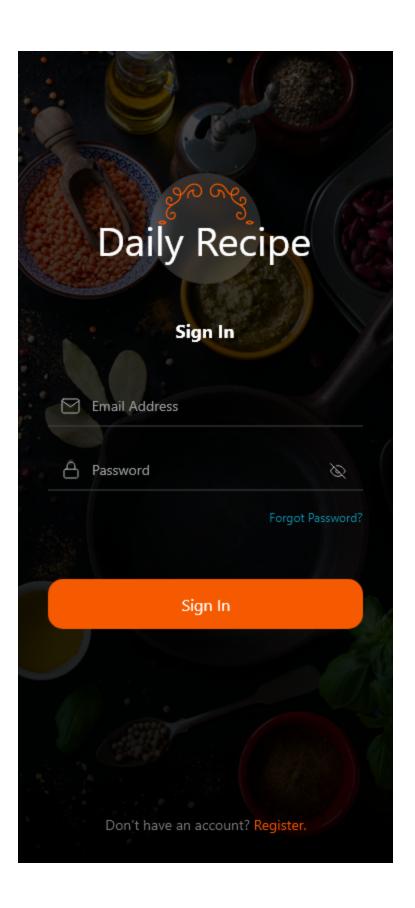

Target Users:

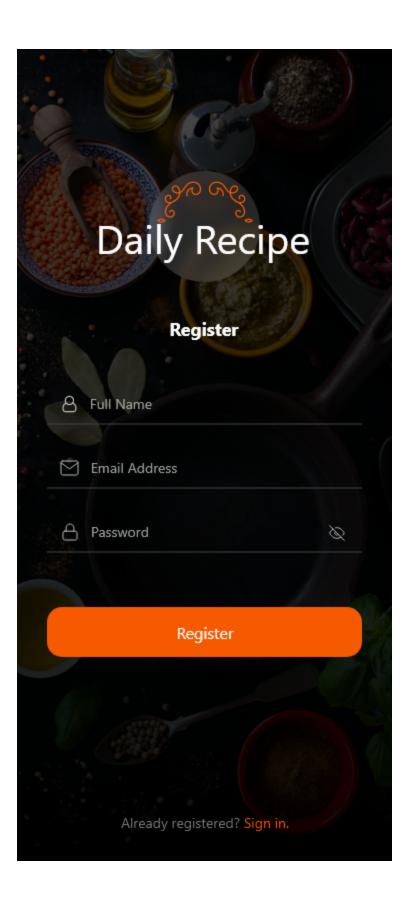

Chefs Students Mothers Workers Foodies

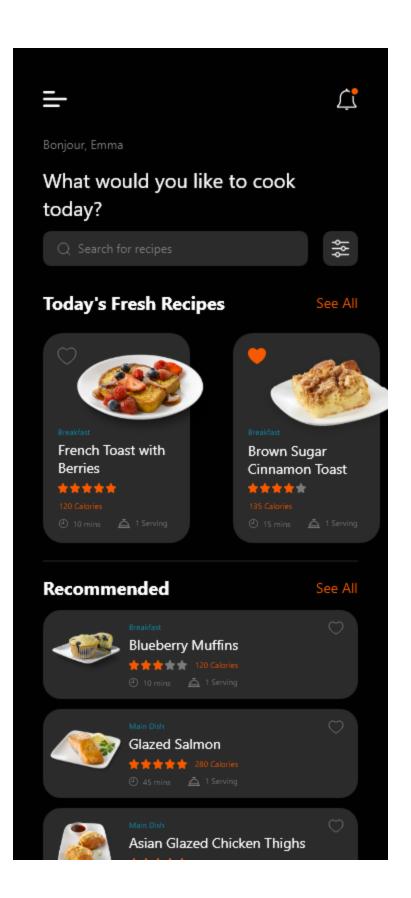

Monetization Strategies:

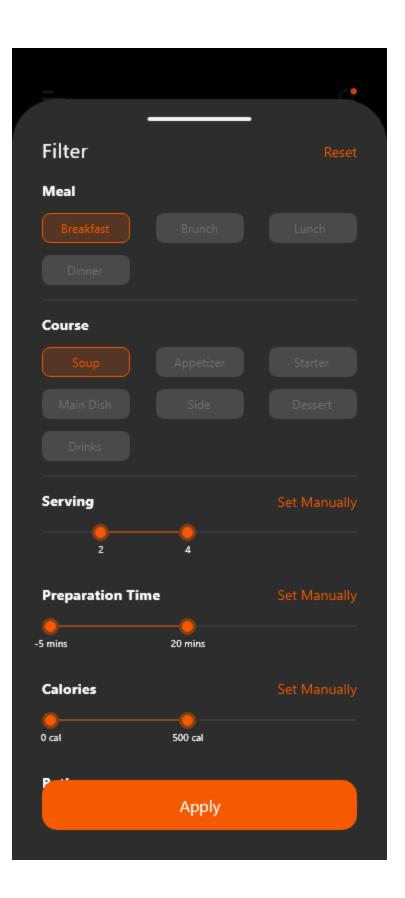

- User subscription Charge users for access to our content or service: ad-free recipes, vegan or specific diet recipes, a recipe cost calculator, and more.
- **In-app adds** The easiest and fastest way to make our product profitable. We can start with affiliate programs but we will make sure to advertise products related to our service.
- **Freemium** Charge for extra features in our free app: access to specific recipes, masterclasses, video tutors, and so on.
